

Sign up for Solar Payment by Georgia Power

Recently, Georgia Power instituted a waiting list for its feed-in tariff, which pays current solar PV customers 17.74 cents per kilowatt hour for solar power that they generate onsite. This waiting list is not a contract, so interested customers can add their names to this list by submitting the existing Distributed Generation Contract, which is located [here](#). United Renewable Energy is here to assist you in filling out solar specific information. Customers are not required to indicate an expected start-up date to join the waiting list. Further information about the feed-in tariff can be found [here](#). As additional capacity becomes available, Georgia Power should contact customers on the list on a first-come, first-serve basis.

Please contact Shana Haygood at shana@u-renew.com or 678.577.8247 for more details.
